

VIKASHINI D

Senior Software Engineer | Lead Angular/UI Developer

Bangalore, India | +91 9600698711 | vikashini.d@gmail.com | linkedin.com/in/vikashini-d-30b975126

SUMMARY

- Senior Angular/UI engineer with 8+ years building scalable, high-performance web applications; led the migration of a production Angular codebase from v14 to v19, introducing standalone components and Tailwind CSS to modernize the architecture.
- **Senior Angular/UI Developer** with 7 years of experience building scalable web applications using Angular, React.js, TypeScript, JavaScript, HTML, and CSS.
- Led Angular **v14 to v19 migration**, implementing standalone components, Tailwind CSS, and modern UI best practices.
- Hands-on technical lead with experience in **Agile delivery, sprint planning, code reviews, mentoring, and feature development.**
- Strong expertise in **REST API integration, Java Spring Boot services, Jenkins CI/CD, Jasmine, Cypress, and SonarQube.**
- Experienced **MEAN Stack Developer** with hands-on experience in Angular, Node.js, MongoDB, and Express.js.
- Good knowledge of **Core Java**, PostgreSQL query writing, and MongoDB database operations.
- Additional experience in **Flutter/iOS development** and building reusable, high-performance UI components.

SKILLS

- **Frameworks/Languages:** Angular 18/19, NgRx, RxJS, Angular Material, Bootstrap, Tailwind CSS, TypeScript, JavaScript (ES6+), jQuery, HTML5, CSS3 (SCSS/SASS), React.js, Node.js, Express.js, Flutter
- **Databases:** PostgreSQL, MySQL, MongoDB (Robo 3T)
- **Testing & Quality:** Cypress (E2E), Jasmine (Unit Testing), BrowserStack, Sauce Labs, AppliTools, Rapid7 BAVA Scan, SonarQube
- **Design & Prototyping:** Figma, InVision
- **DevOps & Version Control:** Jenkins CI/CD, Git, SourceTree, TortoiseSVN, Artifactory, PuTTY, WinSCP
- **Methodologies:** Agile, Scrum
- **Additional:** Core Java, Spring Boot, Python, C++

WORK EXPERIENCE

Senior Software Engineer — LTM Limited (formerly LTIMindtree)

BOSCH RB-PLCD - a web-based measurement data management system supporting product lifecycle testing

Jan 2023 – Present

- Led development of large-scale Angular v19 applications with a modular, reusable component architecture, reducing duplicate code and accelerating feature delivery across teams.
- Directed the migration of a flagship Angular application from v14 to v19, introducing standalone components and Tailwind CSS to modernize the UI and improve maintainability.
- Resolved complex, business-critical defects in the PLCD testing workflow, leveraging domain expertise to reduce recurring issues and improve release stability.
- Partnered with QA teams to develop and maintain Cypress E2E automation suites, increasing test coverage and identifying regressions early; conducted code reviews across multiple teams to enforce coding standards and best practices.
- Built and maintained Jenkins CI/CD pipelines to automate Angular builds, deployments, and release processes.
- Wrote and executed MongoDB queries using Robo 3T for data analysis, validation, and production issue troubleshooting, enabling faster root cause identification and resolution.

Angular UI Developer — Genpact (formerly Enquero)

NGCGI, Supply Chain Management

Jul 2021 – Dec 2022

- Built the NG-CGI Goaling Application (Angular 8 + TypeScript) for managing Cisco provider services, delivering key features that streamlined goal tracking for provider teams.
- Integrated the Angular front end with Java Spring Boot services, collaborating closely with backend developers to design, consume, and validate REST APIs, ensuring seamless end-to-end data flow.

- Worked closely with backend teams on Spring Boot service enhancements, API integration, debugging, and production issue resolution, improving application stability and reducing defect backlog.
- Tracked delivery through Rally and supported CI/CD processes using Jenkins, contributing to improved sprint execution and release quality.
- Performed Rapid7 BAVA security scans, identifying and remediating vulnerabilities prior to production releases.

Senior Software Developer / Angular Developer — Prodapt Solutions Pvt. Ltd.

ATOM-NextGen & Virgin Media Business

May 2020 – Jun 2021

- Built ATOM UI components for an SD-WAN application (Angular 8) by translating UX designs into production code, directly supporting client requirements.
- Developed Node.js and Express.js scripts and authored Gulp v3 tasks to automate build, deployment, and release processes, reducing manual effort and improving deployment efficiency.
- Implemented authentication, authorization, and session management to enable secure, role-based access across multiple internal applications.
- Integrated RESTful APIs (GET, POST, PUT, DELETE) to support key business workflows and application features.
- Performed cross-browser and cross-device testing using BrowserStack and Sauce Labs across Chrome, Firefox, IE11, Edge, Safari, and iOS, minimizing production defects; contributed to sprint planning and task allocation in an Agile Scrum environment.

Software Engineer — Prodapt Solutions Pvt. Ltd.

LGI-Unity Media, Virgin Media, UPC, LGI-Vodafone

May 2018 – Apr 2020

- Led the Agile Scrum UI framework team (ATOM) for the LGI-Vodafone business, running sprint planning and JIRA story management, and coordinating directly with the design team on story clarification and delivery.
- Built ATOM UI components from InVision designs for the Selfcare Portal, E-commerce, AntiDDoS, and BDS-SD WAN platforms, translating client-approved mockups into shipped features.
- Enabled the Infosys AEM development team to consume ATOM with real data, fixing integration bugs that unblocked their front-end delivery timeline.
- Owned cross-browser testing (BrowserStack, Sauce Labs, AppliTools, and an internal automated tool) as the team's first line of QA, reducing browser-compatibility defects reaching later test stages.

EDUCATION

- **Bachelor of Engineering**, Electronics and Communication Engineering
Sri Eshwar College of Engineering, Anna University | CGPA: 8.0 | Aug 2014 – May 2018
- **HSC (State Board)** — Bharathiya Vidya Mandir Matriculation Higher Secondary School | 88.5% | Jun 2012 – Apr 2014
- **SSLC** — Arokiyamatha Matriculation Higher Secondary School | 88.4% | Jun 2010 – Apr 2012

CERTIFICATIONS

- Core Java - Foundations — Coursera
- Express.js — Coursera
- Angular Foundation Certification — Pluralsight
- NgRx Fundamentals Certification — Pluralsight
- Angular Development — Udemy
- Generative AI Mastermind — Outskill
- Java — Guvi
- C# — BizTalk Training

HONORS & AWARDS

- **Accountability Gracias Award** — LTM Limited (formerly LTIMindtree) | Mar 2025
- **Best Team Award, NGCGI Project** — Genpact | Apr 2021
- **Spotlight Award** — Prodapt Solutions | Oct 2020
- **Super Star Team, ATOM-NextGen** — Prodapt Solutions | Dec 2020
